--- June Programming ---

Bubble and Babies © ®

Bubbles are an activity for you and your child to do together. We will discuss the importance of bubbles, learn new songs to sing while using bubbles and you will get to take some bubbles home with you.

Baby Games © ®

Current research affirms the importance of stimulating babies brains to help 'pave those highways' and make permanent connections for future learning and development. All games will encourage healthy brain development, improve listening and language skills, spark curiosity, increase awareness of their body and develop a sense of humor.

Movin' and Groovin' © ®

Join us for a fun and interactive music program where we will learn new songs, play with instruments and find ways to move our bodies.

Kid's Cook for Families © ®

All families welcome to join us for a fun learning experience with cooking. Together you will measure, mix, cut and explore the cooking world hands on.
